

Early talk shapes a child's life.

LENA[®] SHAPES EARLY TALK.

Our vision: Every child enters kindergarten prepared for success.

LENA's programs help Head Start and Early Head Start programs prepare children for school through language-focused instruction that increases parent and educator capacity to build strong relationships.

Get the most of your early language and literacy efforts with reportable metrics that directly connect to the Head Start Performance Standards for goal setting and family engagement services (1302). LENA programs combine evidence-based feedback with research-based curricula creating proven behavior change among parents, caregivers, and early childhood educators in support of stronger outcomes for children:

"The teachers are surprised by their own data and how it motivates them. We've found that even teachers who aren't participating in the program yet are paying attention to what the LENA teachers are saying and doing, and now they are talking more as well!"

- Bruce Watson, Executive Director of the Early Learning Coalition of Escambia County

Head Start Performance Standards Satisfied by LENA's Programs and Assessments: LENA Grow

Program Standard	LENA Grow meets this by...
Must embed responsive & effective teacher-child interactions . (1302.30)	<ul style="list-style-type: none"> ✓ Helps early childhood educators understand how to have more quality interactions with children. ✓ Existing LENA Grow implementers have found an increase in their CLASS scores for Positive Climate.
Must implement screening & assessment procedures that support individualization and growth in the areas of development and support family engagement in children's learning & development. (1302.30)	<ul style="list-style-type: none"> ✓ LENA Grow can be utilized with the Developmental Snapshot, an assessment tool that can support educators and families in understanding a child's learning & development progress.
Must ensure teachers and other relevant staff provide responsive care and an organized learning environment, including for children with disabilities.
